About this Product Disclosure Statement (PDS)

This PDS provides information to help investors and their advisers assess the merits of investing in the Templeton Global Equity Fund and to compare it with other investment opportunities on offer.

This PDS is also for use by investors (“Indirect Investors”) who wish to access the Fund through an authorised master trust or wrap account, investor directed portfolio service, IDPS-like scheme, or nominee or custody service (collectively known as “IDPS Service”) located in Australia. The operator of an IDPS Service is referred to in this PDS as the IDPS Operator and the disclosure document for an IDPS Service is referred to as the IDPS Guide.

If you invest through an IDPS Service, your rights and liabilities will be governed by the terms and conditions of the IDPS Guide. Indirect Investors should apply for units by using the IDPS Guide provided by the IDPS Operator of the IDPS Service.

Updated Information

The information in the PDS is up to date at the time of preparation. However, information that is not materially adverse is subject to change from time to time. We may update this information.

For updated information about the Fund (such as performance) please consult your financial planner, call our Investor Services Team on (02) 8211 2735 or visit our website www.franklintempleton.com.au. We will send you a paper copy of any updated information upon request. If information changes which is considered materially adverse we will generally issue a supplementary or replacement PDS.

Important Notice to Investors

This Product Disclosure Statement (“PDS”) is dated 15 February 2008. Franklin Templeton Investments Australia Limited ABN 87 006 972 247, AFSL 225328 (“Manager”, “Responsible Entity”, “we”), as responsible entity for the Templeton Global Equity Fund (“Fund”), is the issuer of Units in this Fund and the issuer of this PDS and is solely responsible for its contents.

The information contained in this PDS is general advice only. This PDS has not been prepared to take

into account the particular investment objectives, financial situation or needs of any particular investor or class of investor. Before investing, you should assess whether the Fund is appropriate for you. You should also assess and consider the tax implications of investing in the Fund. We strongly encourage you to read this document in full before making an investment decision. Your financial adviser and/or taxation adviser will be able to assist you in this assessment.

An investment in the Fund is not a deposit with or liability of Franklin Resources Inc., (“Franklin Templeton Investments”) or any other company or member of the Franklin Templeton Investments group and is subject to investment and other risks, which could involve delays in repayment or loss of income or capital up to the full amount invested. Neither Franklin Templeton Investments nor any other party, including without limitation Franklin Resources Inc or any member of the Franklin Templeton Investments (FTI) group guarantees the performance of the Fund or the return of capital.

Applications for investment in the Fund may only be made by investors on the investment application form attached to or accompanied by this PDS or accompanied by an electronic version of this PDS. If you invest through an IDPS Service you must complete the application form provided by the IDPS Operator.

If you have received an electronic version of this PDS, we will provide you with a paper copy upon request by calling (02) 8211 2735. **This PDS can only be used by investors receiving it (electronically or otherwise) in Australia.**

References to “you” or “your” are to all prospective investors in the Fund.

All amounts in the PDS are given in Australian dollars (unless otherwise specified). Fees, charges and commissions include Goods and Services Tax (GST) of 10% but less any expected reduced income tax credits (RITCs) of 75% where applicable unless otherwise specified. This will effectively reduce the GST payable from 10% to 2.5%. On page 25 there is a glossary of terms. This has been included to help explain some of the terms used in this PDS.

How Fund investments are managed

Objective

The Fund's investment objective is to outperform the MSCI All Country World Free ex Australia Index ("Index"), in Australian dollar terms after fees and taxes, over the medium to long term through investing in the Templeton Global Trust Fund ('TGTF').

Fund Investments

The Fund is invested in accordance with the Templeton Investment Philosophy (See page 6) in a globally diversified portfolio of common equity securities listed on recognised stock markets in both developed and emerging markets around the world, excluding Australian equity securities. The Fund will maintain minimal cash levels to cover immediate expenses and commitments to Unitholders. The assets of the Fund are invested in the TGTF and references to the Fund's portfolio or investments includes a reference to the investment portfolio of TGTF.

Over the long term, Fund returns are expected to be a combination of capital growth and income. The Fund is managed from a total return perspective which means there is not particular targeting of any particular split between the income and growth (realised and unrealised) components of the Fund's returns.

Derivatives

While the underlying portfolio of the Fund may be in a currency other than the Australian dollar, we do not

enter into hedging transactions to protect the Australian dollar value of the Fund's portfolios against a decline in value arising from currency fluctuations or other market movements. We do not use derivatives in managing the Fund's portfolios. However, the Fund may invest in convertible notes, deeply discounted bonds and other securities with similar risk characteristics, as an alternative to holding a company's common stock.

Diversification

The Fund's portfolio industry, country or regional weightings may differ significantly from the Index weightings. However, we will endeavour to structure TGTF's portfolio in a manner that provides for prudent diversification.

Borrowing

The Fund is permitted to borrow under the Constitution. However, it is not our intention to borrow except to cover settlement delays. Otherwise, the Fund is not leveraged.

Statement regarding labour standards, and environment, social and ethical considerations

We generally do not take labour standards, and ethical, social or environmental considerations into account when making investment decisions in relation to the Fund. However, these factors may sometimes be implicitly taken into account when investment decisions are made.

The Templeton investment philosophy

The Fund is invested in accordance with the Templeton Investment Philosophy summarised below.

Templeton is one of the pioneers in global investing and its successful “value” investment philosophy has been refined over more than 60 years. The Templeton investment process endeavours to identify “undervalued” equity securities through fundamental company analysis, using a global industry focus and a long-term investment horizon. Templeton believes that over time, well-chosen undervalued securities will be recognised by the market and will reward the patient investor.

Templeton’s long-term record of superior performance has been achieved by adherence to its time-tested investment philosophy and process. In particular, Templeton’s global research network, with investment professionals located around the world performs extensive fundamental company research and industry analysis seeking to uncover investment opportunities. This ability to analyse companies, including those with near-term problems and to recognise opportunities is a strength that has allowed Templeton to consistently identify undervalued securities that offer the potential for superior returns.

Templeton Investment Approach

In summary, the Templeton investment approach is founded on three underlying tenets:

VALUE

Investment in undervalued stocks

PATIENCE

Well chosen, undervalued stocks will be recognised by the market over time

BOTTOM-UP

Value can be identified through rigorous fundamental, bottom-up analysis

The differentiating characteristics of the Templeton style of investing

- Fundamental value approach to investing
- Bottom-up stock selection
- Proprietary fundamental research
- Global industry research focus
- Long term investment horizon
- Adherence to a time-tested investment philosophy and process
- Long-term track record of superior performance

About the risks of investing in the Fund

An investment in the Fund is subject to risk that can cause the value of the Fund's units to go up and go down in value. In addition, variability in returns from one year to the next can be caused by many factors. Some of these factors are specific to certain securities (e.g. changes in company management) while some factors impact the investment market in general (e.g. changes in crude oil prices).

As the manager of the Fund and its underlying investments, we will seek to minimise investment risks by undertaking detailed analysis of the securities of individual companies and the political and economic risks associated with particular countries. However, no assurance can be given that such action can remove the risks referred to in this section.

You may wish to seek independent advice on investment risk.

If you invest through an IDPS Service you should refer to the relevant IDPS Guide for further information about investment risk. In addition, we recommend that you should regularly review your investments because investment goals and/or market conditions may change over time.

The main factors affecting the Fund can be grouped into the following risk categories:

Market Risk

This risk relates to the performance of the global investment market as a whole impacting on the Fund's investment returns. Some of the factors that influence the market include world economic activity, global interest rates and investor sentiment and world events.

Country Risk

Country Risk refers to the potential adverse political, economic, regulatory or social developments affecting the return on an investment in that country. Examples of such risks are

- (1) investment and repatriation restriction;
- (2) limited investor information and less stringent investor disclosure requirements;
- (3) substantially smaller liquid securities markets;
- (4) certain local tax law considerations;

- (5) limited regulation of securities markets;
- (6) political and economic developments;
- (7) possible imposition of exchange controls or restrictions; and
- (8) possibility of limited recourse for the investor.

Fund Risk

There are risks of investing in a fund rather than investing directly in individual securities. Risks include the Fund or TGTF terminating, the fees and expenses changing, the impact of income or capital gains accrued in the Fund and the impact of inflows and outflows from the Fund.

Security Specific Risk

Individual securities such as shares are exposed to corporate influences such as changes in a company's business environment and profitability which may cause the value of the securities to increase or decrease and impact the value of the Fund's units.

Currency Risk

This risk relates to the potential for currency movements to cause the value of Fund's global investments to rise or fall. As we do not enter into currency hedging transactions, currency fluctuations will result in a change to the Australian dollar value of the Fund's portfolios.

The Benefits of Portfolio Diversification

Diversification is an important way to manage investment risk. It involves spreading the Fund's invested portfolio across equity securities with different return attributes to smooth out short term returns. For example, if one investment is performing poorly, another may be experiencing better returns to offset this underperformance.

Diversification can assist investors achieve their long-term investment objectives while reducing the impact of short term volatility.

Investors should note that returns from international equities tend to be more volatile than other major assets classes like Australian equities, Australian fixed interest, property and cash deposits.

Performance History of the Fund

Performance Summary to 31 December 2007.

	Templeton Global Equity Fund (after fees and taxes with distribution income reinvested)	MSCI All Country World Free ex Australia Index, in Australian dollar terms
1 Year	-4.46%	0.31%
2 Years	6.10%	6.41%

Note

Please keep in mind that past performance is not necessarily indicative of future performance and may not necessarily be repeated. Returns are volatile and may go up and down significantly. Historical performance is not a reliable guide to future performance. Inception date of the Fund was 10 March 2005. You can obtain updated performance information on the Fund by contacting your IDPS Operator, financial planner or visit our website www.franklintempleton.com.au or call (02) 8211 2735 for a paper copy.

Fees and costs

Consumer Advisory Warning

Did you know?

Small differences in both investment performance and fees and costs can have a substantial impact on your long term returns.

For example, total annual fees and costs of 2% of your fund balance rather than 1% could reduce your final return by up to 20% over a 30-year period (for example, reduce it from \$100,000 to \$80,000).

You should consider whether features such a superior investment performance or the provision of better member services justify higher fees and costs.

You may be able to negotiate to pay lower contribution fees and management costs where applicable. Ask your fund or your financial adviser.

To find out more

If you would like to find out more, or see the impact of the fees based on your own circumstances, the Australian Securities and Investment Commission (ASIC) website (www.fido.asic.gov.au) has a managed investment fee calculator to help you check out different fee options.

Fees and Costs Table

This table shows fees and costs that you (as an investor investing in the Fund or through an IDPS) may be charged. These fees and costs may be deducted from your money or from the returns on your investment or from the Fund as a whole. You should read all of the information about fees and costs as it is important to understand their impact on your investment. Information on taxation is set out in another part of this document.

Type of Fees or Costs	Amount	How and when paid

Additional Explanation of Fees and Costs

Management Costs

The management costs in the fees and costs table reflect the management costs which we receive or recover in relation to both the Fund and TGTF.

Management Fees

The Management Fee set out in the fees and costs table comprises the management fees which we receive for managing the Fund and its investment in TGTF. The management fee is calculated daily by reference to the Net Asset Value of the Fund and the Net Asset Value of TGTF and equals 0.92% of the Net Asset Value of the Fund. The management fees reduce the performance of the Fund and are reflected in the unit price of the Fund. We will charge a management fee for the Fund and TGTF equal to 0.92% per annum of the Net Asset Value of the Fund (inclusive of GST but less any expected RITCs) until further notice, for so long as the Fund is invested primarily in TGTF.

Administration Costs

Administration Costs are the fees and costs for operating a fund. They include administration,

distribution costs and other expenses incurred in operating a fund. Without limitation, these include amounts payable in connection with custody, compliance, legal and tax consulting fees, banking, accounting and audit. The administration costs set out in the fees and costs table comprise an estimate of the administration costs which will be incurred in relation to the Fund and an estimate of the administration costs which will be incurred in relation to TGTF

We will recover administration costs in relation to the Fund and TGTF equal to 0.21% per annum of the Net Asset Value of the Fund (inclusive of GST but less any expected RITCs) until further notice, for so long as the Fund is invested primarily in TGTF. These administration costs exclude unanticipated expenses such as unit holder meetings and litigation in relation to the Fund and TGTF. We are permitted to recover out of the assets of the Fund and TGTF all expenses incurred in the proper performance of our duties in respect of the Fund and TGTF and we are entitled to be indemnified out of the assets of the Fund and TGTF for any liability properly incurred by it in relation to that fund and TGTF respectively.

Administration Costs in relation to the Fund are reflected in the unit price for the Fund.

Example of Annual Fees and Costs for the Fund

This table gives an example of how fees and costs in the Fund can affect your investment over a one year period. You should use this table to compare this product with other managed funds.

<i>Example- Templeton Global Equity Fund</i>	<i>Amount</i>	<i>Balance of \$50,000 with a contribution of \$5,000 during the year</i>
Contribution Fees	Nil	For every additional \$5,000 you put in, you will be charged \$0.
Plus Effective Total Management Costs	1.13% ^{#1}	And , for every \$50,000 you have in the Fund you will effectively be charged \$565 each year.
Equals Effective Cost of Fund		If you had an investment of \$50,000 at the beginning of the year and you put in an additional \$5,000 during that year you will effectively be charged fees from \$565 to \$622. ^{#2}

^{#1} This amount is inclusive of GST after allowing an estimate for RITCs which effectively reduces the impact of GST payable from 10% to approximately 2.5% in relation to certain supplies. This figure represents the effective management costs of investing in the Fund which takes into account the costs of the Fund investing in TGTF. As the management costs for the Fund and TGTF, at the date of this Product Disclosure Statement, are expected to be higher than the management costs for the 2006-2007 financial year, this figure is the expected internal cost ratio (ICR) for the Fund and TGTF from the date of this PDS. The ICR is the ratio of the fund's management costs that are not deducted directly from the unitholder's account to the fund's total average net assets.

^{#2} An allowance for transaction costs will apply for contributions and withdrawals from the Fund. Please see "Transaction Costs and Buy/Sell Spread" below. You should note that this example assumes a constant investment balance of \$50,000 throughout the year. Management costs will also be charged in relation to any additional contributions you make during the year and the amount you pay will depend on the proportion of the year during which the additional contributions are invested.

Note

This is just an example. In practice, the actual investment balance of an investor will vary daily and the actual fees and expenses we charge are based on the value of the Fund, which also fluctuates daily. Transaction Costs also apply.

Transaction Costs and Buy/Sell Spread

Transaction Costs represent the costs of brokerage, stamp duties, government charges and other expenses incurred by the Fund in the buying and selling of securities in the Fund portfolio arising from applications and redemptions made by investors and in order to meet investment objectives. Transaction costs which are incurred when investors make application and redemption requests are generally reflected in the unit price of the Fund and are not charged separately to investors. Transaction Costs incurred to meet investment objectives are recovered out of the assets of the TGEF from time to time as they are incurred. Transactional Costs are an additional cost to the investor but are retained by the Fund and not paid to us or an external manager.

Transaction Costs are included within the determination of the Application and Redemption Prices of the Fund (and are referred to as the buy/sell

spread) and are expressed as a percentage of the underlying Net Asset Value of the Fund.

They are designed to protect investors by ensuring that the expense of buying or selling the underlying securities arising from an application or redemption is borne by those who apply or redeem their investment in the Fund.

We have determined that a 0.80% buy/sell spread will apply to the Fund where transaction costs included in the calculation of the Application Price and Redemption Price will be 0.40% each. We regularly review the appropriateness of the buy/sell spread and we reserve the right to amend the buy/sell spread that will be applied to applications and redemptions if in our opinion the factors taken into consideration of the Transaction Costs alter.

Differential Fee Arrangements

ASIC has issued Class Order relief from specific provisions of the Corporations Act to allow responsible entities to charge or rebate management fees individually negotiated with “wholesale clients” (as defined in the Corporations Act).

We reserve the right to avail ourselves of this relief to individual investors at our own discretion. There is no particular method for negotiating these fees. We can be contacted on (02) 8211 2735.

Increases or Alterations to the Fees

We may vary the fees specified at any time at our absolute discretion. If the variation is an increase we will give you 30 days advance written notice.

The Constitution of the Fund provides that the following maximum fees (inclusive of the net effect of GST but less any expected RITCs) may be applicable:

- A maximum application fee of 2.05% of the value of the investment amount.
- A maximum management fee of 0.62% of the Net Asset Value of the Fund per annum. (Please note that this is the limit of management fees which we recover from the Fund rather than TGTF.)
- We have determined until further notice, no application fee is payable when applying for units in the Fund.

Government charges and GST

Government taxes such as stamp duty and GST may be applied as appropriate. Reduced Input Tax Credits will also be claimed by the Fund where appropriate.

Commissions and other payments

We may pay fees to financial services intermediaries. Such fees may be for a fixed dollar amount or a percentage of funds invested through the financial services intermediaries. If we do make these payments they will be done from our own resources so they are not an additional cost to the Fund or its investors. It is not possible to provide an estimate of these payments.

We maintain a register (in compliance with the Industry Code of Practice on Alternative Forms of Remuneration) that documents where material alternative forms of remuneration are paid to certain advisers. For further information about this please contact us. The register is publicly available and you can obtain a copy by contacting us on (02) 8211 2735.

Additional adviser fees

These fees are not paid from the Fund. You and your financial planner may agree that you will pay your financial planner an additional fee.

Fund structure

About the Fund

The Fund is a registered managed investment scheme that is an unlisted Australian unit trust.

A Unit in the Fund confers on the Unitholder an equal undivided interest in the assets of the Fund as a whole, subject to the liabilities of the Fund. However, it does not confer an interest in any particular asset of the Fund. As a direct investor in the Fund you are a Unitholder.

The terms and conditions of the Constitution are binding on each Unitholder (and all persons claiming rights through them respectively are treated as if they were a party to the Constitution).

If you are investing in the Fund through an IDPS, you do not acquire the rights of a direct investor; rather, the IDPS Operator acquires these rights on your behalf subject to the arrangements governing the IDPS Service.

Unitholders may transfer Units, subject to the procedure set out in the Constitution. We may refuse to record a transfer of a Unit for any reason including if, in our opinion, it is not in the best interests of the Fund to do so.

Constitution

The Constitution for the Fund contains our rights, duties and powers as the Responsible Entity of the Fund. It gives us all the powers in respect of the Fund that it is possible under the law to confer on a trustee and does so as though we were the absolute owner of the assets acting in our capacity.

The Constitution contains various operational provisions such as Unit pricing, management fees and expenses, investment powers, income distribution and reinvestment, redemptions, Unitholder meetings, amendments to the Constitution and termination of the Fund. Subject to the Corporations Act, the Constitution and any approvals required by law, we may, by deed, replace or amend the Constitution.

Copies of the Constitution are available upon request from us by calling (02) 8211 2735.

Compliance Plan

We have prepared a Compliance Plan setting out the procedures, systems and controls used by us, to ensure compliance with the Corporations Act and the Constitution of the Fund. The plan is audited

annually by the Compliance Plan's auditor. Any breaches are to be reported to the Compliance Committee and, in some cases, ASIC.

Compliance Committee

In accordance with the Corporations Act, a Compliance Committee has been established, which assesses the adequacy of the Compliance Plan and monitors and reports to our Board of Directors on our adherence to the Compliance Plan.

An important duty of the Compliance Committee is to report breaches of the Corporations Act and the Fund Constitution to our Board of Directors and in some cases to ASIC.

The Compliance Committee meets quarterly and as required.

Responsible Entity

We are the Responsible Entity of the Fund and are solely responsible for the management of the Fund.

We are obliged to operate the Fund in accordance with its Constitution and with the provisions of the Corporations Act.

We may retire as Responsible Entity of the Fund in accordance with the Fund Constitution and the Corporations Act.

Subject to the Corporations Act, we and our associates may hold Units in the Fund. We are also permitted by the Constitution (subject to the Corporations Act), to:

- deal with ourselves (as trustee of the Fund or in another capacity), an associate or any Unitholder;
- have an interest in any contract or transaction with ourselves (as trustee of the Fund or in another capacity), an associate or any Unitholder and retain for our own benefit any profits or benefits derived from such contract or transaction; and
- act as responsible entity of other managed investment schemes.

The Constitution permits us to take and act on certain opinions, advices or documents without liability where we acted in reliance on these in good faith.

Custodian

The Custodian for the Fund is the Sydney branch of JPMorgan Chase Bank N.A., (ABN 43 074 112 011, AFSL 238 367) a wholly owned subsidiary of JPMorgan Chase. Under the Custody Agreement, JPMorgan Chase Bank N.A. provides custodian and settlement services relating to the Fund's investment portfolio. Under an Accounting and Related Services Agreement, JPMorgan Chase Bank N.A. also provides accounting, Unit pricing and Unit registry services for the Fund.

JPMorgan Chase Bank N.A. has given and has not, before the date of this PDS, withdrawn its consent to be named in this PDS in the form and context in which it is named, but does not make any statement in this PDS nor is any statement in this PDS based on any statement by them.

Limitation of Liability of Unitholders

The Constitution provides that the liability of each Unitholder is limited to its investment in the Fund. A Unitholder is not required to indemnify us or any of our creditors against any liability in respect of the Fund. However, no complete assurance can be given in this regard, as the ultimate liability of a Unitholder of a trust, has not been fully determined by the courts.

The Constitution requires a Unitholder to indemnify us to the extent that we incur a liability for tax or certain fees as a result of their action or inaction, or as a result of an act or omission requested by them. We are permitted to deduct amounts owed to us by a Unitholder from payments to that Unitholder

Joint members and former joint members are joint and severally liable in respect of all payments.

Our Liability as Manager

The Constitution provides that, subject to the Corporations Act, we are not liable in contract, tort or otherwise to Unitholders for any loss suffered in any way relating to the Fund.

Our liability to any other person other than a Unitholder is limited to our ability to be indemnified from the assets of the Fund.

Meeting of Unit holders

We may convene a meeting of Unitholders of the Fund at any time and must do so if required by the Corporations Act. Meetings may be called to approve certain amendments to the Constitution or to wind up the Fund.

The quorum for a meeting of Unitholders is two unit holders present in person or by proxy together holding at least 10% of all Units, unless the Fund has only one Unitholder who may vote on a resolution, in which case that one Unitholder can constitute a quorum. Other matters relating to Unitholder meetings are dealt with in the Constitution and Corporations Act. Except where the Constitution provides or the Corporations Act requires otherwise, a resolution of Unitholders must be passed by more than 50% of Unitholders present at the meeting in person or by proxy and who vote (if voting by a show of hands) or by Unitholders who hold Units exceeding 50% in value of the total value of all Units held by Unitholders who vote on the resolution (if voting by a poll).

A resolution passed at a meeting of Unitholders held in accordance with the Constitution and the law binds all Unitholders, whether or not they were present at the meeting.

Complaints Handling

We have established procedures for dealing with complaints.

If you are a Direct Investor in the Fund and you have a concern, you should contact our Investors Services team on (02) 8211 2735. Your concerns will be handled in accordance with our Complaints Handling procedures.

If you are an Indirect Investor and have a concern, you should first contact the IDPS Operator of the IDPS Service through which you invest in the Fund. The IDPS Operator will handle your complaint in accordance with its complaint handling procedure, and may in accordance with those procedures, refer the complaint to us. IDPS Operators' should write to our Compliance Manager at Level 25, 360 Collins Street, Melbourne Victoria, 3000 or call (03) 9603 1200. If we receive a complaint from the IDPS Operator, it will acknowledge your concern, investigate it and report back to you.

If any issues remain unresolved, Unitholders can contact the Financial Industry Complaints Service Limited on 1300 78 08 08 or at the address below:

Financial Industry Complaints Service
PO Box 579
Collins Street
West Melbourne
Vic 8007

Termination of the Fund

The Constitution provides that the Fund will be terminated on the earliest of:

- the date we determine to wind up the Fund (of which you will be given notice);
- the eightieth anniversary of the day before the Fund commenced; and
- the date on which the Fund terminates in accordance with any other provision of the Constitution or by law.

Investing in the Fund via an IDPS service

Note If you are investing directly in the Fund we refer you to page 18 of this document.

When investors invest through an IDPS Service, they are directing the IDPS Operator to arrange for their money to be invested on their behalf. Accordingly, they do not acquire the rights of a Unitholder of the Fund nor acquire any direct interest in the Fund. The IDPS Operator acquires these rights and can exercise, or decline to exercise, them on their behalf according to the arrangements governing the IDPS Service. Indirect Investors should ignore information in this PDS that is relevant only for direct investors in the Fund. This includes information relating to:

Minimum Initial Investment and Additional Investment: The minimum initial investment and additional investment amounts for investments that are made by Indirect Investors are documented in the relevant IDPS Guide.

Application and Application Forms: Indirect Investors should not complete the application form attached to or accompanied by this PDS but should rather complete the application form supplied by the IDPS Operator.

Information: Indirect Investors will not receive statements, tax information or other information directly from the Fund. Indirect Investors should receive equivalent information from the IDPS Operator.

Fees and Expenses of the Fund: Fees and expenses applicable to the IDPS Service (as set out in the IDPS Guide) are payable in addition to the fees and expenses stated in this PDS.

If you invest through an IDPS Service you may rely on the information in this PDS for the purpose of

giving a direction to your IDPS Operator to invest in the Fund on your behalf. This PDS may be withdrawn upon notice by us to the IDPS Operator. If such notice is given by us, it is the responsibility of the IDPS Operator to withdraw this PDS from circulation. We will also advise the IDPS Operator of any change to or replacement of this PDS. It is also the obligation of your IDPS Operator to notify you of any change to or the replacement of this PDS.

We accept no responsibility for any failure of your IDPS Operator to provide you with a current version of this PDS. We authorise the use of this PDS as disclosure to you as a prospective investor in the Fund through the relevant IDPS Service.

If you are investing through an IDPS Service you should, before making any investment decision, read this PDS in conjunction with the relevant IDPS Guide and consult independent financial advice if required.

If you invest through an IDPS Service you do not receive income or reports directly from us, nor do you directly participate in meetings of Unitholders or the winding up of the Fund. **Investors investing through an IDPS Service should seek appropriate tax advice with regard to this Fund.**

Information that is not materially adverse is subject to change from time to time and may be updated by us without issuing a supplementary PDS, by placing a copy of the information on our website at www.franklintempleton.com.au. A paper copy of the updated information will be given to you without charge on request. To request a copy of any updated information, please call us on (02) 8211 2735.

Administering investments in the fund

Who can apply?

Applications for investment in the Fund may only be made by investors receiving this PDS (electronically or otherwise) in Australia. The procedures for applications and redemptions will depend upon whether you have invested directly in the Fund or through an IDPS service. Investors investing through an IDPS Service may wish to refer to information on page 17 or alternatively seek independent advice.

If you invest in the Fund through an IDPS Service you will not have the rights of a direct investor in the Fund and you should refer to the IDPS Guide issued by the IDPS Operator for information relating to investing in the Fund through the relevant IDPS Service.

Minimum Investment

Unless otherwise determined by us, the minimum investment amount by an investor into the Fund is \$25,000 and the minimum additional investment is \$5,000. If you are investing through an IDPS Service, you should refer to the relevant IDPS Guide for minimum investment amounts applicable to you.

How to Subscribe

New Investor

An investor investing in the Fund for the first time should complete and sign the application form at the back of this PDS and return it by facsimile, with original in the mail to:

Manager – Fund Administration and Reporting
Franklin Templeton Investments Australia Limited
Level 25
360 Collins Street,
Melbourne Victoria 3000

Fax: (03) 9603 1299

If you are investing through an IDPS Service you should complete the application form supplied by the IDPS Operator and refer to your IDPS Guide for further details. The timing for processing and pricing of your application into the IDPS Service will be dependent on the requirements of the IDPS Service. You should refer to your IDPS Guide for further details.

However, investors that do not invest through an IDPS service may electronically transfer the application monies or send a cheque for the

application monies together with the application form to us. Cheques should be crossed “Not Negotiable” and made payable to: “FTIA- Client Trust A/c- Subscription”

Existing Investor

An existing investor investing in the Fund should complete and sign the application form attached to this PDS and return by facsimile to:-

JPMorgan Chase Bank, Unit Registry Team

Fax: (02) 9251 5052

Application monies should be sent electronically to the bank account specified on the application form by the prescribed methods shown on the application form.

However, investors that do not invest through an IDPS service may send a cheque for the application monies crossed “Not Negotiable” and made payable to ““FTIA- Client Trust A/c- Subscription” to:

Manager – Fund Administration and Reporting
Franklin Templeton Investments Australia Limited
Level 25
360 Collins Street,
Melbourne Victoria 3000

Fax: (03) 9603 1299

We may reject an application in the Fund in whole or in part without giving any reason for the rejection.

Applications need to be received and appropriate funding provided to the Fund’s nominated bank account before 12 noon on a Business Day to be eligible to receive the unit price applicable to that Business Day.

Application money will be received into an application holding account. If any interest is earned in relation to the application holding account, this interest is not payable to the investor and will be kept by us.

Unit Pricing

Units are issued at an Application Price determined in accordance with the Constitution.

The Application Price is determined each Business Day. The Application Price is equal to the Net Asset Value of the Fund plus an allowance for Transaction Costs of 0.40% divided by the total number of Units on issue. The number of Units issued is determined by dividing the amount subscribed by the applicable

Application Price. If this calculation produces a result that is not a whole number, a fraction of a Unit will be issued.

Unit Pricing Policy

We have established a formal written policy in relation to the guidelines and relevant factors taken into account when exercising any discretions in calculating unit prices (including determining the value of assets and liabilities). Typically however assets are valued each business day at their market value. A copy of our policy will be made available to investors free of charge on request

Redemptions

Unitholders may request redemption of their Units while the Fund is liquid (see below) dependent on whether they are a direct investor or an Indirect Investor.

Unitholders may request redemption of their Units while the Fund is liquid (see below) by giving notice in writing by facsimile to the Fund's custodian:

JPMorgan Chase Bank, Unit Registry Team

Fax: (02) 9251 5052

Redemption requests need to be received by JP Morgan by 12 noon to receive the unit price for close of business that day subject to the conditions below.

If you are investing through an IDPS Service you should refer to the IDPS Guide for information on the timing and processing of your redemption requests.

Units are redeemed at a Redemption Price determined in accordance with the Constitution. The Redemption Price is determined each Business Day. The Redemption Price is equal to the Net Asset Value of the Fund less an allowance for Transaction Costs of 0.40% divided by the total number of Units on issue.

Under the terms of the Constitution, we must satisfy a redemption request within 30 days of receipt. However, redemptions will normally be processed within 7 Business Days. In certain limited circumstances, we may defer a request in the event that assets cannot be realised due to circumstances outside our control for as long as those circumstances apply.

If the Fund becomes illiquid (as defined in the Corporations Act), then you may only redeem from the Fund in accordance with the terms of the redemption offer (if any) made in accordance with the Corporations Act.

A Fund will be liquid if at least 80% of the assets of the Fund are liquid assets. Broadly speaking, liquid assets are money in an account or on deposit with a financial institution, bank accepted bills, marketable securities, other prescribed property and other assets that we reasonably expect can be realised for their market value within the period specified in the Constitution of the Fund for satisfying redemption requests while the Fund is liquid.

Income Distribution

A distribution of income is the payment of the Fund's income to investors at predetermined intervals. We will determine the Distributable Income of the Fund for each Distribution Period. The Distributable Income will then be distributed to each Unitholder, in proportion to the number of Units they hold at the end of the distribution period, within three months of the end of the distribution period. It is intended that distributions will be paid quarterly and unless you instruct us otherwise will be reinvested into further units in the Fund in accordance with the Fund Constitution. Any distribution reinvested is reinvested at the Net Asset Value Price next calculated after the end of the relevant Distribution Period. If you are investing through an IDPS Service you should refer to the IDPS Guide for information on the timing and manner of receiving distributions.

If you invest in the Fund before it makes a distribution, you may receive some of your investment back in the form of a distribution of income. In addition, when you invest in the Fund, the Fund may have unrealised gains which may, when realised, also result in you receiving some of your investment back in the form of a distribution of income.

Cooling off

Under law, certain investors (those not defined as wholesale clients in the Corporations Act), have a cooling off right whereby they can change their mind about their investment in the Fund and ask for their money to be repaid.

The cooling off right must be exercised within 14 days from the earlier of:

- when you receive confirmation of your investment; or
- the end of the fifth business day after the day on which your units were issued or sold to you.

The cooling off right terminates immediately if you exercise certain other investor rights, such as withdrawing part of your investment. The cooling off

right does not apply in certain circumstances, such as units issued upon the reinvestment of distributions.

To exercise the cooling off right we must be notified in writing or electronically before the expiry of the 14-day cooling off period. The repayment of your investment under the cooling off right is subject to an adjustment for market movements (both positive and negative) during the period the investment has been held. We may also deduct a reasonable charge for our administration costs.

The right to cool off does not apply to you if you invest in the Fund through an IDPS Service as you do not acquire the rights of a Unitholder in the Fund nor does it apply to wholesale clients (as defined in the Corporations Act).

If you have any questions about cooling off rights contact your financial planner or our Investor Services team on (02) 8211 2735.

Reporting

We undertake to provide Fund Unitholders with the following regular reports:

Daily:

- Application and Redemption Prices
- Confirmation of applications/redemptions

Monthly:

- Month-end Application and Redemption Prices
- Unit holding movement summary

Quarterly:

- Distribution Advice

Annually:

- Taxation summary of Distributions
- Audited financial accounts

The right to receive confirmation and reporting statements does not apply to you if you are investing in the Fund through an IDPS Service. This is because you as an investor in an IDPS service do not acquire the rights of a Unitholder in the Fund.

The Anti-Money Laundering and Counter-Terrorism Financing Act 2006

The Anti-Money Laundering and Counter-Terrorism Financing Act 2006 (“AML/CTF Act”), which was introduced in December 2006, imposes a number of obligations on responsible entities when they provide designated services to their customers. Among other things, responsible entities are required to identify

and verify the identity of their customers before providing the designated service.

In order for us to comply with the requirements of the AML/CTF Act relating to the avoidance of money laundering, you undertake and agree to provide us with such identification information and/or documents as specified in this PDS and/or as we may otherwise request, for the purpose of such compliance, from time to time.

If you have any questions about the AML/CTF Act, please refer to the Australian Government Attorney-General’s Department webpage:

Privacy and Information

You can access, correct or update any information we hold about you by contacting our Investor services team on (02) 8211 2735. A copy of our Privacy Policy is available on request from our Investor Services team.

We collect information primarily for the following purposes:

- to process your application; and
- to administer your investment and provide you with reports

We will disclose information to your financial planner if their name and stamp appears on the application form. In addition, we may disclose information we hold about you in the following circumstances:

- where you consent to the disclosure;
- to companies that provide services on our behalf, for example, to the custodian of the Fund
- If the disclosure is required or authorised by law

We do not receive any information about you when you invest in the Fund through an IDPS Service. For more information on the collection, storage and use of your information you should contact your IDPS Operator.

The information we collect and store from IDPS operators and other wholesale clients is used to establish and administer their investments.

If you have any questions about the information collected or the privacy policy, you should contact us.

Taxation

The following taxation information is general only and particular to Australian resident investors and should not be treated as providing a complete explanation of all tax issues associated with investing in the Fund.

The discussion of Australian taxation law is current at the time this PDS was prepared. However, the taxation law may change and the circumstances of Unitholders may vary. Therefore the tax consequences of investing in the Fund may also vary. Accordingly, prospective investors should seek independent taxation advice on their individual income tax and capital gains tax position before investing.

Taxation of the Fund

The taxable income of a trust is, generally, not assessed in the hands of us (as a trustee) if the investors in the trust are presently entitled to all the taxable income. The Constitution provides that for each financial year Unitholders will be presently entitled to all the Distributable Income of the Fund. We may also distribute any other amounts not already included in the Distributable Income of the Fund.

Unitholders will be assessed for Australian taxation purposes irrespective of whether the Distributable Income is distributed or reinvested in additional Units.

The Distributable Income of the Fund will include distributions from TGTF and capital gains received on redemption of units in TGTF.

Capital Gains

The Fund may derive capital gains through distributions of gains by TGTF. A distribution of realised capital gains may be included in the redemption price of a Unit in TGTF if the Fund redeems a Unit in TGTF.

We currently expect that the gains and losses on the disposal of investments of the Fund will be assessed under the Australian capital gains tax provisions. In determining any capital gain or loss realised on the redemption of a Unit in TGTF, the redemption price should be reduced by the distribution of realised capital gains included in the redemption price of the units in TGTF.

The realised capital gains to which a Unitholder becomes entitled may, in part, not be assessable

income for the Unitholder as a result of the discount capital gain concession. To the extent that amounts distributed to Unitholders are not included in a Unitholder's assessable income as a result of the concession, no adjustment to the cost base of the Units will be required.

Foreign Income

The Fund may derive foreign source income through distributions of foreign source income by TGTF to the Fund and, if the foreign source income is taxed overseas, Australian Resident Unitholders may be entitled to a tax credit against their Australian tax for the foreign tax paid by the TGTF or the Fund.

Foreign Investment Funds

The Fund may be subject to the Foreign Investment Fund (FIF) regime. However, under the FIF regime, gains on investments held by TGTF in certain overseas companies and trusts may be assessed as income for tax purposes, even though the gain is unrealised. It is possible that TGTF may acquire interests in investments which are subject to the FIF regime. TGTF will endeavour to satisfy the "10% FIF exemption" threshold. Under the 10% FIF exemption, unrealised gains on FIF assets will not be assessed under the FIF regime.

Unitholders should seek professional advice in relation to the impact of the FIF regime taking into account their particular circumstances.

Redemption of Units in the Fund

Unitholders may be assessed for tax purposes on the redemption of Units in the Fund. Under the capital gains tax provisions, some Unitholders may be entitled to the discount capital gain concession if the Units have been held for 12 months or more. This will depend upon, amongst other things, the number of Unitholders in the Fund and the extent of unrealised capital gains on assets held in the Fund. It is important you seek independent advice before seeking the benefit of the discount capital gain concession. Certain Unitholders, for example, those who carry on business of trading in securities may be liable to tax on the redemption of their Units under provisions other than the capital gains tax rules.

Tax File Number (TFN) and Australian Business Number (ABN)

If you are investing directly in the Fund, you are advised, but you are not obliged, to provide your ABN or TFN. If you are making this investment in the course of a business or enterprise carried on by

you, you may quote an ABN instead of a TFN. We are required, however, to deduct tax from any income distributed to Unitholders who fail to provide this information. This tax is levied at the highest marginal rate of taxation.

Completing the application form

Completing and lodging the application form

The following information is provided to assist you in completing and lodging the application form contained in the PDS.

To make an investment, please complete all applicable sections of the application form, sign it and submit the necessary identification documents.

You will need to transfer the monies noted on your application from your bank account to the Fund's bank account as documented on the application form.

Alternatively if you are investing in the Fund directly and not through an IDPS you can send through a cheque for the application monies crossed "Not Negotiable" and made payable to: "FTIA – Client Trust A/c - Subscription" to:

Manager – Fund Accounting and Administration
Franklin Templeton Investments Australia Limited
Level 25, 360 Collins Street
Melbourne Victoria 3000

Signing the application

Please read the declaration section carefully before signing the application form. Each signatory to the investment account must sign the application form personally.

If signing under a power of attorney, you must attach a certified copy of the power of attorney document (unless already held by us) and a specimen signature of the attorney.

Quoting a Tax File Number (TFN)

You can decide whether you wish to quote your TFN on your application form. If we do not receive your TFN, ABN, or appropriate exemption information, we will withhold tax at the highest marginal tax rate (plus the Medicare levy) from income distributions made to you.

Investing on behalf of a superannuation fund

If you indicate that an investment is made on behalf of a superannuation fund we will consider the superannuation fund to be a complying fund under the Superannuation Investment Industry (Supervision) Act.

Lodging the application form

To lodge your completed application form you can send it to:

Manager – Fund Accounting and Administration
Franklin Templeton Investments Australia Limited
Level 25, 360 Collins Street
Melbourne Victoria 3000

The completed application form may be faxed to our offices on (03) 9603 1299.

The application form and money needs to be received by 12 noon on a Business Day to receive the application unit price for that Business Day. (Please note for initial applications we also need to receive the original form posted in mail).

Alternatively you can lodge the application form through your financial planner.

Incomplete or rejected application forms

If your application is incomplete and/or you failed to submit the necessary identification documents, the application monies transferred may be returned to you.

Under the Constitution of this Fund, we can accept or reject any application for units and are not required to give any reason or grounds for such a refusal.

The following table provides some assistance for completing and signing the application form:
